

- LEGEND**
- Location of active operation
 - Dry hole
 - Oil well, producing or shut-in
 - Gas well, producing or shut-in
 - Gas well, plugged and abandoned
 - Helium well, producing or shut-in
 - Helium well, plugged and abandoned
 - Water well
 - Salt cavern well, liquid petroleum products or natural gas storage
 - Stratigraphic test
 - Salt water disposal well
- *Includes wells drilled for potash, halite, structural, hydrological, and geothermal gradient information
