

F Bar Energy Project

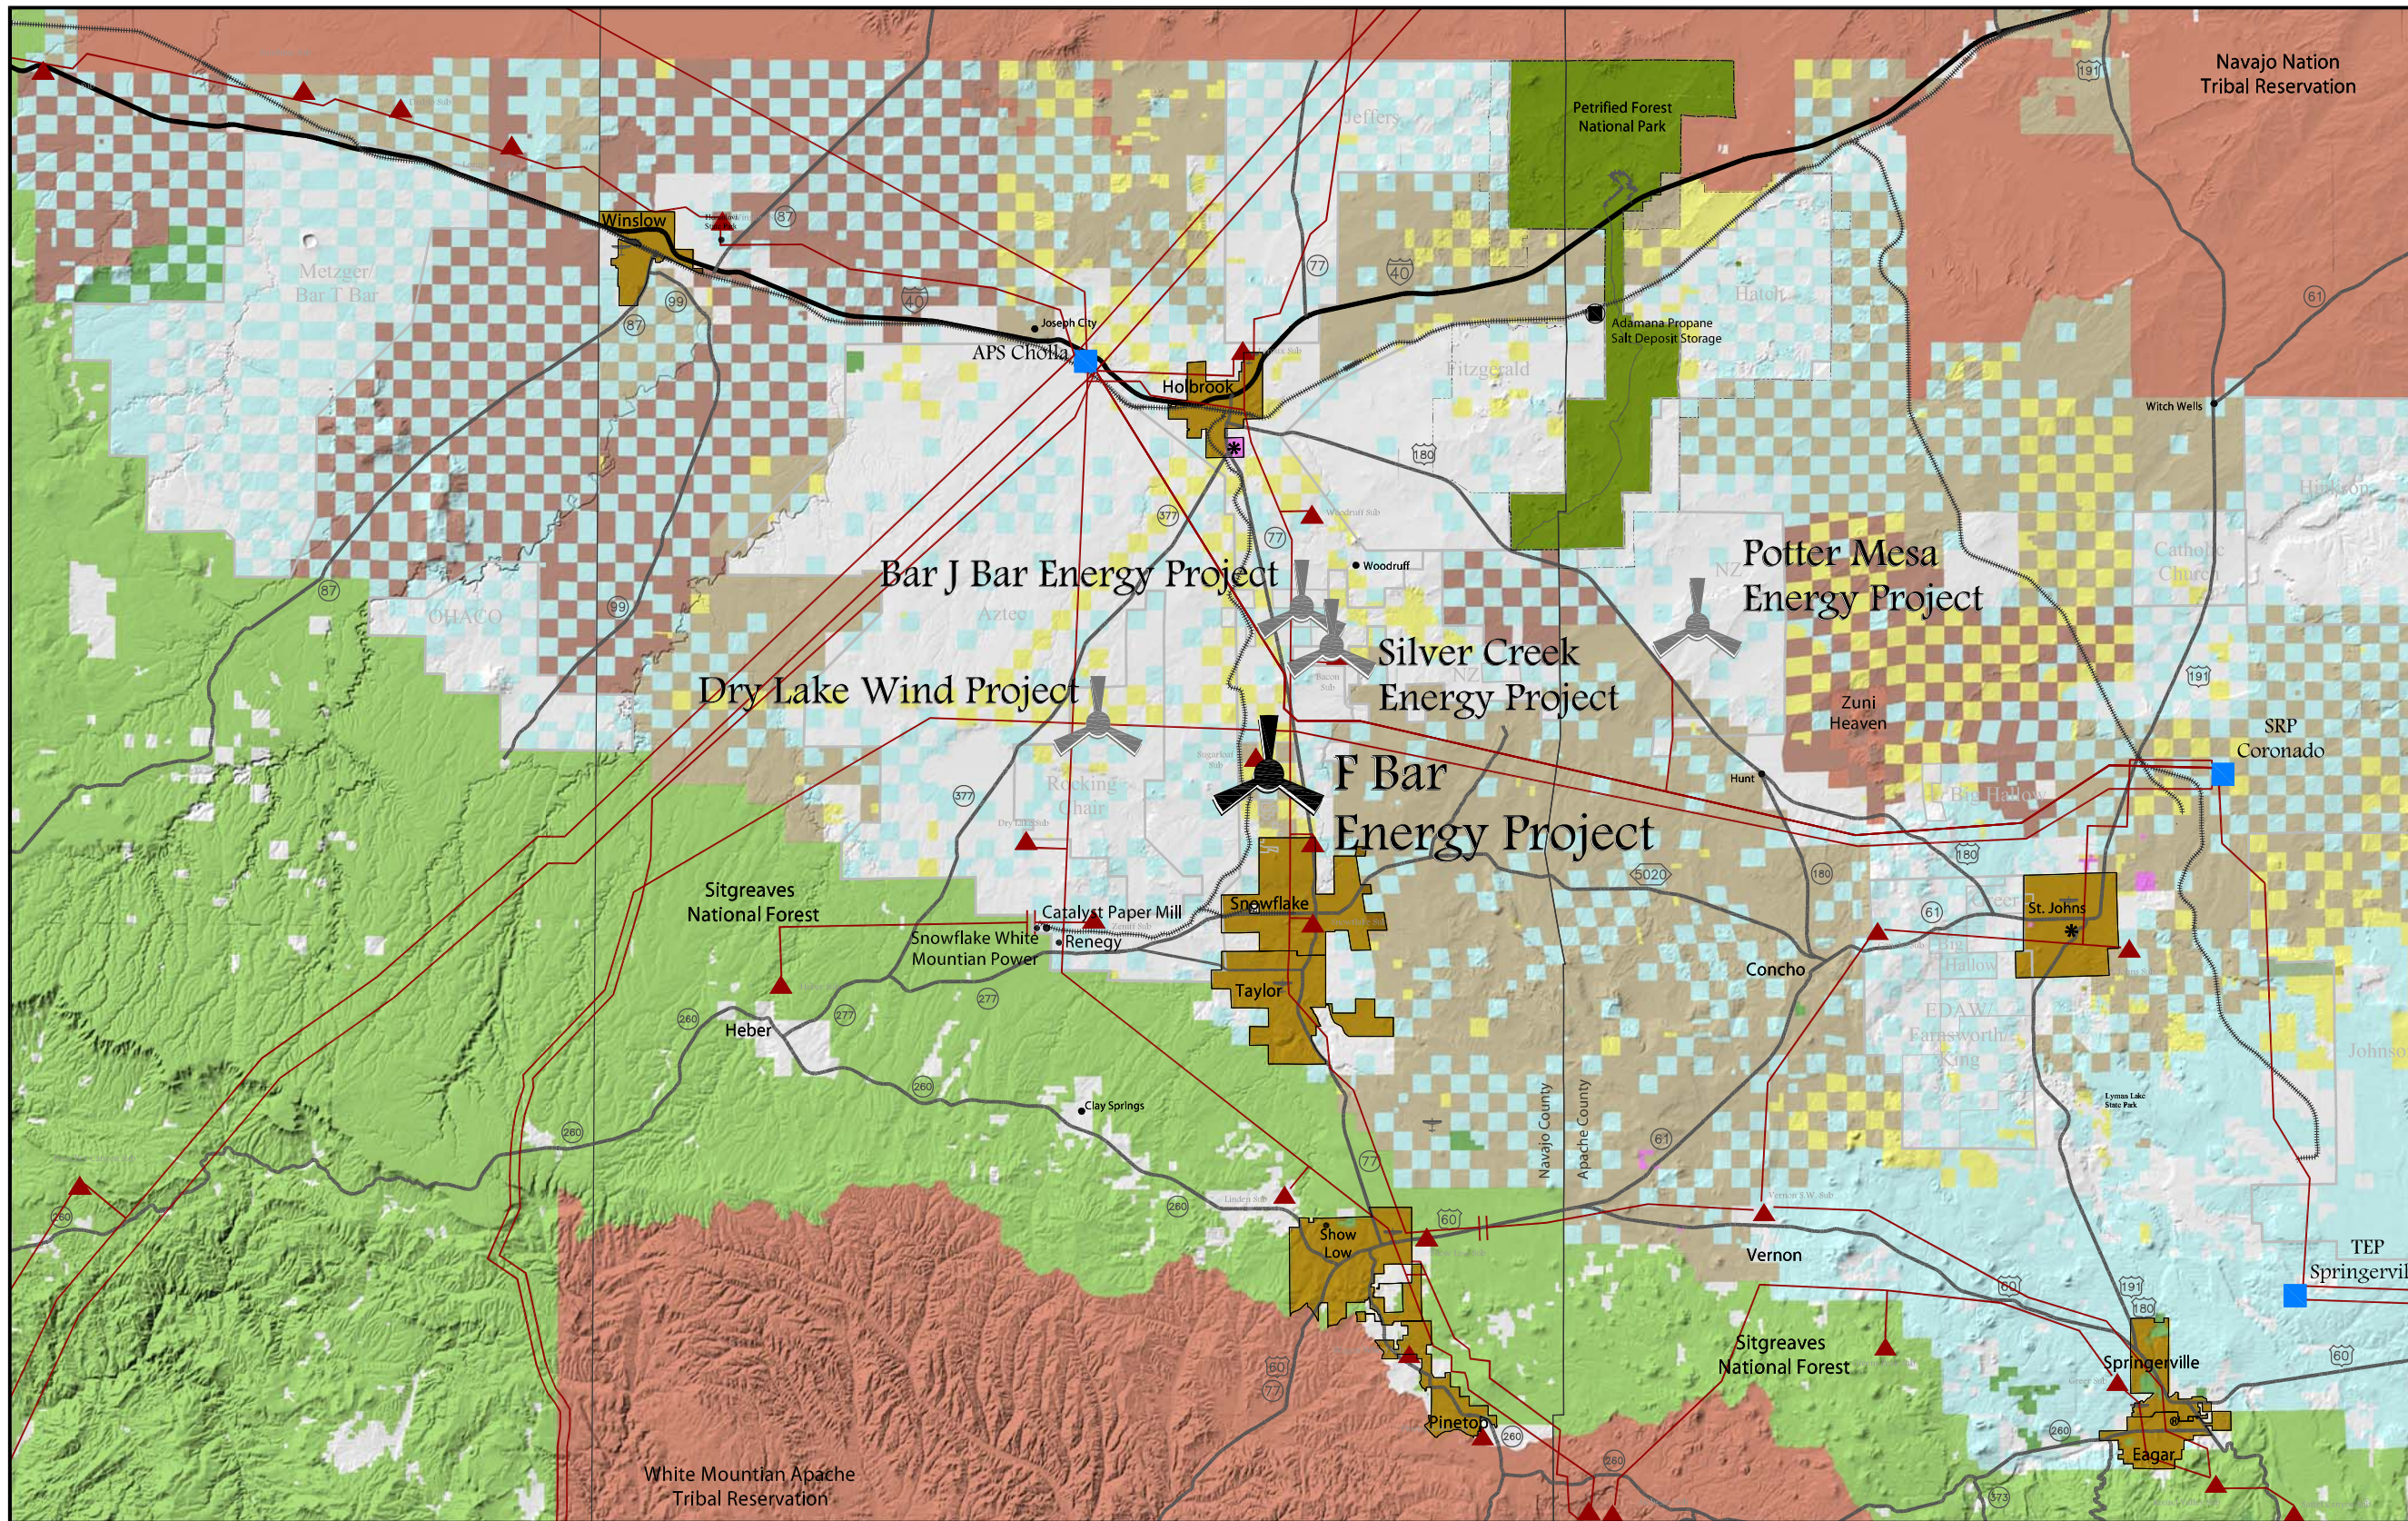

Special Use Permit Application

May 05, 2009

Regional Context

-  Energy Project
-  Transmission Corridor
-  Substation
-  Power Plant
-  Town Limit
-  Tribal Land
-  Tribal Land (Fee)
-  BLM Land
-  State Land
-  Other
-  Subdivided Land
-  Private Land
-  National Forest
-  Petrified Forest National Park
-  Wilderness Area

05 MAY 2009

Conceptual Site Plan

-  Proposed Wind Turbine
Not to exceed 60 Wind Turbines
-  Concentrating Solar Power Mirrors and Towers
Not to exceed 150 Solar Towers
-  Proposed Met. Tower
Not to exceed 10
-  100m Tower Buffer
-  Proposed Operation and Maintenance Facility
may include a 2,000 sf - 10,000 sf structure
-  Proposed Staging Area
may include office facility
-  Primary Access Point
-  Secondary Access Point
-  Service Access
Access to individual turbines generally to run parallel with Collector Line alignments
-  Transmission Line (Existing)
-  Sugarloaf Substation

Wind Turbine, Concentrated Solar Power Mirror and Tower, and Met. Tower locations may alter for landforms, soils, rotor spacing, wind resource efficiency, solar resource efficiency, and infrastructure locations and costs. Collector lines between Wind Turbines, Wind Turbine rows, and Concentrated Solar Power will link to substations and transmission lines located on site and connect to the electric grid off site. 8' fence may surround Wind Turbine towers, mirror fields, substations, Operations and Maintenance Facilities, Staging Areas, and may be used to restrict Access Points. Mass grading may be required for installation of infrastructure and energy projects. Service Access may be asphalt, decomposed granite, or gravel. Other materials may be approved by the County.
